On motion *resolved* "that the Clerk be instructed to put up Notices in two or more places in each Polling District in which there are delinquents as to the sending in of Road Returns notifying Overseers of Highways that unless their returns are forwarded to him within thirty days from the date of said notice the law will be strictly enforced.

Report of Councillor Flemming recommending a new road section in Upper Stewiacke is received and confirmed.

Moved by Councillor Crowe seconded by Councillor Chisholm that Mr. Herbert Crowe be recommended as a suitable person to take administration of the Estate of William P. Nelson.—Passed.

A discussion arises on the advisability of obtaining amendments to the act appointing Supervisors of Road Districts, and the manner of expending the road monies.

Councillor Millar denounced the act in the most vigorous terms.

Councillor Pitblado spoke in favor of the principle of the act, but thought it might be simplified, and improved especially in reference to the difficulty in drawing the money. He denounced the expense of laying out the road monies in small commissions scattered all over the district. He thought the money should be concentrated so that where a road was once made it would last for years.

Councillor Guild contended that the roads were so extensive and all in such bad condition that it was absolutely necessary to expend the money all over the district in patching up the roads to make them passable.

Councillor Ross thought the Legislature had made a great mistake in passing such a law, and they would find it out next election. The Supervisors did not know half so much about road making as the Councillors. The road money was a mere trifle compared with the work required to be done. As a matter of fact the Supervisors did not superintend the work done on the roads at all—the Councillors for the district did that. The provision of the Act that all the work should be done by tender and contract was absurd. The old act was better, leaving that matter optional with the Commissioner.

The Warden who happened to be on the floor of the house at the time was asked his views of the matter.

He thought that the law might be amended in some respects, and he thought the Councillors were perhaps in a better position than any else to make suggestions as to what amendments were required. He thought it would have been better to

have left the incorporation act alone, at least for a few years. But it was an accomplished fact, and he did not think any Government would take such a retrograde step as the total repeal of the law would be considered. He thought it was generally admitted that the principle of the act was good, but it had made so sudden and radical a change.

Report of Warden Tupper recommending a new Road District in Upper Stewiacke is read and on motion is received and confirmed.

Report of Auditors is read and on motion received and adopted.

The Clerk presents his Bond which is approved.

On motion the list of Township officers prepared by the several Councillors for the various Districts are passed and all the officers therein named appointed.

On motion of Councillor Morrison it was *resolved* that \$40 be assessed on Great Village Police District for salary for Stipendiary Magistrate for the District.

On motion of Councillor Millar seconded by Councillor Fulton, it is *ordered* that the District Clerks and Treasurers appointed by the Council give Bonds for the faithful performance of their duties in a sum equal to the amount assessed for the support of the Poor for the several Districts.

On motion it is *ordered* that the several amounts due the Warden and Councillors for travel and attendance be paid by the County Treasurer on the warrant of the Clerk in the usual way.

Report of commissioners of School Lands in the old Township of Truro is read and on motion is received and adopted.

On motion *resolved* that the money in the hands of said School Commissioners be divided by Councillor Crowe, as follows: One-Third to the schools in Truro Town, and Two Thirds equally between the other schools in the old Township of Truro.

Report of Finance Committee is read, on motion resolved that the item of \$10.00 for W. C. Kennedy be not allowed.

Moved by Councillor Flemming, seconded by Councillor Ross that the item of \$20.00 for Finance committee be struck out. Motion passed on the following vote:

FOR.—Councillors Hamilton, Dickie, McKay, Ross, D. Nelson, G. W. Nelson, Chisholm, Flemming and Fulton,—9.

REPORT OF COMMITTEE ON EXHIBITION GROUNDS AND BUILDINGS.

To the Warden and Council of the County of Colchester:

Your Commissioners for Exhibition Building and Grounds beg leave to present their report for the year 1881.

REPORT OF COMMITTEE ON FINANCE.

To the Worshipful the Municipal Council for Colchester:

Your committee on Finance beg to report as follows:

The account rendered by Dr. Neil Sutherland, we refer back to the Council as we are not satisfied that it is a county charge.

We recommend that the account for damages claimed for a road in Tatamagouche, established in 1876, be referred to the Supervisor for the District to ascertain and report whether or not the road referred to has ever been actually opened up or used.

We duly considered the claims made against the County by the Town of Truro, and made an amicable settlement of the whole matter with the committee of the Town of Truro, the claim for \$246 was not pressed by the Town committee in view of the fact that \$125.81 of the amount claimed has already been placed to the credit of the Town and that the balance will be so placed as soon as collected.

With reference to the claim for \$379.50 for opening up new streets, we think the claim reasonable, and consented that \$80, now in the hands of W. M. Blair, Esq., M. P. P., being balance of road monies placed at his disposal previous to the incorporation of this Municipality be paid to the Town Council.

We also agreed to ask or allow the Government to allot the Town of Truro \$299.50 out of the Road Grants to this County for the present year. We may say that the amount mentioned is all that is claimed
